Im Frühjahr 2019 hat Quark Expeditions seine erweiterte Nachhaltigkeitsstrategie unter dem Namen „Polar Promise“ oder auch das „Polarversprechen“ veröffentlicht. Trotz aller vergangener Erfolge wollen wir uns nicht auf unseren Lauberen ausruhen. Unser Polarversprechen setzt konkrete Ziele, die es bis über 2025 hinaus zu erreichen gilt.

PRINZIPIEN

Verankerung verantwortungsvoller Methoden in unserem gesamten Unternehmen, sei es in der polaren Wildnis oder an den Orten, an denen wir jeden Tag arbeiten.

Ziel: Bis 2025 wollen wir erreichen, ausschließlich mit Zulieferern, Verkäufern und externen Partnern zusammenarbeiten die unser Engagement für den Erhalt der Polarregionen teilen.

POSITIVE AUSWIRKUNG

Unsere Reiseteilnehmer zu ermutigen und zu motivieren, selbst auch in ihrem persönlichen Umfeld positive Veränderungen in ihrem Leben vorzunehmen.

Ziel: Bis 2025 sollten die gesetzten Maßnahmen der Reiseteilnehmer die Umweltbelastung einer Polarreise aufwiegen.

Programmdetails

DEUTSCHSPRACHIGE/R EXPEDITIONSFÜHRER/IN:	Für jede Reise * (siehe seperate Liste mit Abfahrtsterminen) garantiert Quark Expeditions den Service eines deutschsprachigen Expeditions-Guides. Die Expeditionsleitung wird ihr Möglichstes tun, damit der deutschsprachige Guide auf jedem Ausflug den deutschsprachigen Gästen bestmöglichst zur Verfügung steht, entweder im Zodiac oder auf den Landgängen.
BRIEFINGS	Alle vorgeschriebenen Briefings, wie zum Beispiel das IAATO, Bordsicherheits- und Zodiac Briefing, werden auf Deutsch angeboten (entweder an einem separaten Ort oder es wird simultanübersetzt über ein Audiosystem).
EINFÜHRUNG	Jeder deutschsprachige Passagier findet bei Ankunft in der Kabine ein Begrüßungs- und Informationsschreiben vor, welches den deutschsprachigen Expeditions-Guide vorstellt. Spätestens beim ‘Willkommen an Bord’ Treffen aller Passagiere, wird sich Ihr deutschsprachiger Guide bei Ihnen vorstellen und steht anschließend sofort für die Beantwortung etwaiger Fragen zur Verfügung.
RECAPS	Die regulären Tageszusammenfassungen (Recaps) werden entweder simultan (per Audiosytem) vom Englischen ins Deutsche übersetzt, oder es wird eine verkürzte Tageszusammenfassung in Deutsch angeboten. Oder aber, der deutschsprachige Guide fasst die wichtigsten Informationen der englischen Präsentation im Anschluss informell für die deutschsprachigen Gäste zusammen und steht für Fragen zur Verfügung.
PRÄSENTATIONEN	Auf jeder Reise wird der deutschsprachige Guide einen Vortrag pro Seetag zu einem relevanten Thema in deutscher Sprache anbieten. Dieser Vortrag wird entweder auf Deutsch gehalten oder durch den deutschsprachigen Guide konsekutiv übersetzt / simultan gedolmetscht.
TAGESPROGRAMM	Alle Tagesprogramme werden jeden Abend nach dem Abendessen für den nächsten Tag ins Deutsche übersetzt. Eine elektronische Kopie wird dann auf die Intranetseite “Meine Reise” an Bord hochgeladen. Zusätzlich wird eine Papierkopie an die Gäste verteilt.

Unsere Guides

Wir verfügen über das erfahrenste und leidenschaftlichste Expeditionsteam der Branche. Sie bereichern jede Quark Reise mit ihrem vielfältigen Fachwissen und Fähigkeiten. Jedes Mitglied des Expeditionsteams absolviert den rigorosen Trainingskurs der internen Quark Akademie. Zusätzlich haben unsere Teams umfangreiche Kenntnisse über die Regulierungen und Richtlinien, die von der „Association of Arctic Expeditions Cruise Operators“ (AECO) und der „International Association of Antarctica Tour Operators“ (IAATO) etabliert wurden, welche dem Schutz der Polarregionen gelten.

Lauritz Schönfeld

GEOLOGE, GLAZIOLOGE & DEUTSCHSPRACHIGER EXPEDITIONSGUIDE

Als professioneller Guide und Geologe/Glaziologe arbeitet Lauritz seit 2013 in den Polarregionen. Seine Leidenschaft für kalte Orte entwickelte sich 2010-11 während eines Schüleraustauschjahres in Nuuk, Grönland. Fasziniert nicht nur von endlosen Gletschern, dem vielen Schnee, frostigen Temperaturen und weitläufigen Landschaften, sondern auch von der Herzlichkeit der grönländischen Menschen, wagt er sich seitdem wieder in diese Regionen, um dort zu leben und zu arbeiten. Sein Geologiestudium hat ihn an einige der entlegensten Orte auf diesem Globus gebracht, wie z.B. Spitzbergen, wo er am Universitätszentrum in Longyearbyen arktische Geologie studierte. Lauritz spricht außerdem mehrere Sprachen fließend, wie Englisch, Deutsch und Dänisch, hat aber auch umfangreiche Kenntnisse in Grönländisch, Norwegisch, Latein und Altgriechisch. Sein Rat für „Polar-Neulinge“ ist, die Kamera öfter aus der Hand zu legen und die atemberaubende Landschaft zu genießen, die oft plötzlichen Veränderungen und verblassenden Momenten unterliegt. Wenn er nicht gerade die Polarregionen erkundet, kann man Lauritz beim Wandern oder Fliegen in den Schweizer Alpen, seiner neuen Heimat, antreffen. Er liebt es, Polargäste zu beobachten, die sich über den ersten Blick auf einen entfernten Eisberg in der untergehenden Sonne freuen.

Dany Zbinden

MEERESBIOLOGE & DEUTSCHSPRACHIGER EXPEDITIONSGUIDE

Aufgewachsen in der Nähe von Segelbooten und Wasser, entwickelte Dany schon früh eine tiefe Faszination für die aquatische Umwelt und die Tierwelt. Als Student verbrachte er seine Sommer beim Segeln auf der Ostsee und der Nordsee und beim Tauchen im Atlantik und Mittelmeer. Als Schweiz-Kanadier und Meeresbiologe mit einem Master-Abschluss der Universität Zürich beschäftigt er sich seit 1993 mit der Forschung, der Öffentlichkeitsarbeit und dem Schutz von Meeressäugern. Dany ist ein zertifizierter Walstrandungs-Helfer bei der „Canadian Coast Guard Auxiliary“ und hat die Lizenz, mit einer Armbrust Biopsien an Walen durchzuführen. Man kann sagen, dass die Meeresumwelt für dieses Landei aus der ländlichen Schweiz ein zweites Zuhause geworden ist. Nach einem Forschungsprojekt über die Bioakustik von nordatlantischen Zwergwalen im subarktischen Sankt-Lorenz-Golf, Kanada, gründete Dany 2001 eine gemeinnützige Organisation namens „Mériscopie Marine Research Station“. Mériscopie ermöglichte zahlreiche Forschungsprojekte über Meeressäuger, die von der Bioakustik der Tiere über Fütterungsstrategien bis hin zu den biologischen Auswirkungen von langlebigen Schadstoffen reichen. Die Forschungsarbeiten umfassten eine breite Palette von Arten, darunter Zahnwale wie Schweinswale und Belugas, sowie Bartenwale wie Zwergwale und Blauwale. Als Geschäftsführer von Mériscopie kam Dany bei einem einwöchigen Workshop für Polarpädagogen im Jahr 2012 zum ersten Mal mit der Polarforschung in Berührung und kam 2017 zu Quark Expeditions. Dany liebt es unvergessbare Tierbegegnungen für polare Gäste zu schaffen, sei es mit einem Pinguin, einer Robbe, einem Wal oder sogar einem Manteltier!

Finn Steiner

DEUTSCHSPRACHIGER EXPEDITIONSGUIDE

Geboren in Kiel, Deutschland, erkundet Finn jedoch schon seit seiner Jugend leidenschaftlich per Kajak, zu Fuß und auf Skiern die Küste von British Columbia, Kanada, wo er seither beheimatet ist. Seine dadurch entfachte Liebe zur Natur und den wilden Gegenden der Welt, sowie sein Fachwissen und Faszination teilt er heute mit Begeisterung als Expeditions-Guide an Bord. Sein ganz besonderes Interesse gilt den Seevögeln und sämtlichen Meeresbewohnern – egal ob unter oder über Wasser.

CAMPING ANTARCTICA

(an ausgewählten Terminen)

Übernachten Sie in der Antarktis unter freiem Himmel! Stellen Sie sich vor, wie die endlose Polardämmerung— bei gutem Wetter —die umliegende Gletscherlandschaft in prächtige Farben taucht. Der Alltag wird zu einer fernen Erinnerung, wenn Sie beim Einschlafen der antarktischen Natursymphonie lauschen. Sie bekommen an Bord ein vollständiges Briefing und werden somit optimal auf Ihre unvergessliche Nacht unter dem antarktischen Sommerhimmel vorbereitet. Nach dem Abendessen ziehen Sie sich warm an für die Zodiac-Fahrt zur Übernachtung an Land. Mit Ihrem Biwaksack, einer Isomatte und Schlafsack sind Sie gut für die Nacht im Schnee gerüstet. Wir empfehlen aufgrund einer limitierten Teilnehmerzahl, diesen Ausflug im Voraus zu buchen.

GREENLAND CAMP EXPERIENCE

Besuchen Sie das kleine und exklusive Tasermiut Camp. Unsere einheimischen Guides führen Sie durch die Wunder ihrer Heimat. Mit einem lokalen Koch durchstreifen Sie die Tundra und sammeln gemeinsam frische Zutaten für Ihr Abendessen. Lernen Sie mehr über die regionale Flora mit ihren vielfältigen Verwendungsmöglichkeiten. Übernachten Sie im Camp und erleben Sie wie die endlose Polardämmerung - bei klarem Himmel - das umliegende Gebirge in prächtige Farben taucht.

MOUNTAIN BIKING

Lust auf ein aktives Abenteuer? Zusammen mit lokalen Partnern haben wir Mountainbike-Routen durch die atemberaubende Landschaft Südgrönlands ausgewählt. Die beiden 2-motorigen Helikopter der *Ultramarine* bringen Sie zum Startpunkt und holen Sie am Ziel wieder ab. Die HeliMountainbike Touren dauern 4 bis 6 Stunden, davon ca. 2 bis 3 Stunden auf dem Rad. Die Teilnehmer müssen fit sein und über gute Kondition verfügen. Die Strecke führt größtenteils über Schotterstraßen mit einigen Offroad Passagen. Die Fahrer sollten daher in der Lage sein kleine Hindernisse (wie Wurzeln oder Felsen) zu bewältigen und ihre Gänge der Strecke entsprechend anzupassen.

STAND-UP PADDLEBOARDING

(nur auf *World Explorer* und *Ultramarine*)

Die Kombination von Surfen mit Kajakfahren, Stehpaddeln und Paddeln ermöglicht Ihnen eine sehr persönliche und einzigartige Perspektive auf die Antarktis. An ruhigen Seetagen gleiten Sie durch stille Buchten und erleben die Tierwelt wassernah (einmalige Aktivität). Zu Ihrer Sicherheit werden Sie von einem Zodiac während des Ausfluges begleitet. Wir empfehlen aufgrund einer limitierten Teilnehmerzahl, diesen Ausflug im Voraus zu buchen.

SEA KAYAKING

Stellen Sie sich vor, in einer von Eisbergen und Gletschern umgebenen Bucht, über stilles Wasser zu gleiten. Für erfahrene Kanuten bietet unser Sea Kayaking Programm die Möglichkeit, das Polarmeer und die Eislandschaft auf intime Weise zu erkunden. Kayak-Touren werden wetterabhängig mehrmals während der Reise, als Alternative zu Landgängen und Zodiac-Fahrten angeboten. Vorkenntnisse sind Teilnahmevoraussetzung. Sie müssen in der Lage sein, ohne Hilfe aus Ihrem Kajak auszusteigen (Wet Exit). Für den interessierten Anfänger bietet unser Paddling Excursion Programm eine wunderbare Alternative.

PADDLING EXCURSION

Für interessierte Kajakliebhaber mit wenig oder keiner Erfahrung, bieten wir an ruhigen Seetagen Touren in unseren offenen Paddelbooten an (einmalige Aktivität). Unsere erfahrenen Kajak-Guides begleiten Sie auf dieser Ausfahrt und helfen Ihnen, Ihre Zeit im Polarmeer zu einem unvergesslichen Erlebnis zu machen. Wir empfehlen aufgrund einer limitierten Teilnehmerzahl, diesen Ausflug im Voraus zu buchen.

EXKLUSIVE HELI-LANDUNG

Stellen Sie sich vor, Sie betreten einen unberührten Teil der Antarktis, der nur per Helikopter sicher erreichbar ist. In Begleitung unserer erfahrenen Guides bringen Sie die 2-motorigen Helikopter der *Ultramarine* sicher zu exklusiven Traumdestinationen jenseits der von Schiffen erreichbaren Küstenlinie. Erfreuen Sie sich während des Fluges an der spektakulären Weite der Antarktis aus der Vogelperspektive. Nach der Landung können Sie abschalten und die prachtvolle Landschaft von Ihrem erstklassigen Aussichtspunkt genießen: Gletscher-Amphitheater, atemberaubende Gipfel und vieles mehr. Sie reisen in Gruppen von 12 Personen mit nicht mehr als 4 Gruppen (48 Gäste) pro Landung. Genießen Sie die Zeit mit der Betrachtung der wohl exklusivsten Panoramakulisse des Kontinents und lassen Sie die unberührte antarktische Schönheit auf sich wirken. Die Helikopter werden Sie wieder an der selben Stelle abholen und zurück zur *Ultramarine* bringen. Jedes Heli-Landungserlebnis wird von unserem Expeditionsteam unter Berücksichtigung der Bedingungen, Vorschriften, und der Kapazität des Standorts einzigartig zusammengestellt.

ALPINE HELI-TREKKING

Begleiten Sie uns auf ein Aktiv-Erlebnis ins Herz der Antarktischen Halbinsel. Mit einer kleinen Gruppe von Abenteurern werden Sie an Bord eines Helikopters der *Ultramarine* einen Trekkingausflug in ein Gebiet unternehmen, das nur aus der Luft sicher erreichbar ist. Schon beim Helikopterflug beschenkt die Antarktis ihre Gäste mit grandioser Aussicht auf die unendliche Polarlandschaft. An Land werden Sie während eines erfrischenden Spaziergangs, einer Wanderung oder einer Schneeschuhwanderung (je nach Bedingungen) mit ebenso atemberaubenden Aussichten auf abgelegene Gebirgszüge, vergletschertes Terrain und schneebedeckte Gipfel belohnt. Dieses einmalige Heli-Abenteuer wird Ihnen die überwältigende Schönheit der Antarktis jenseits der Küste nahe bringen.

REISEVERLAUF

TAG 1 Linienflug von Frankfurt nach Toronto. Übernachtung im Hotel.

2 Charterflug nach Nuuk und Einschiffung auf unser Expeditionsschiff. Insbesondere diese Reise hat keine feste Route, was eine komplett individuelle und exklusive Reise ermöglicht. Unter Beobachtung der lokalen Wetter- und Eisbedingungen plant unser Expeditionsteam täglich Ausflüge in die Tiefen der südlichen Fjordsysteme. Wenn wir Glück haben, erleben wir am Abend die schillernden Farben der polaren Dämmerung und genießen die atemberaubende Schönheit Südgrönlands.

3 - 5 In den westlichen Fjorden Grönlands wird uns schnell klar, warum Erik der Rote Grönland seinen Namen gab: Wo wir auch hinschauen, wir werden mit großartigen Ausblicken auf blaue, eisbedeckte Gewässer und wunderschöne grüne Weiden belohnt. Unser Expeditionsteam versucht, innerhalb dieser zwei Tage das ultimative Erlebnis für uns zu gestalten. Wenn es die Bedingungen erlauben, haben wir die Möglichkeit, auf dem grönländischen Eisschild, der größten Eismasse der nördlichen Hemisphäre, zu landen. Auch malerische Berggebiete, die sich für eine Wanderung anbieten, erreichen wir auf dem Luftweg.

6 - 8 Auch als "arktisches Patagonien" bezeichnet, ist Südgrönland reich an spektakulären Landschaften. Umgeben von hochaufragenden, schneebedeckten Bergen ist die Südspitze des Landes ein Paradies für Abenteuerlustige. Mit der Ultramarine steuern wir ganz tief und weit in die majestätischen Fjorde. Dieses einzigartige Schiff wurde entwickelt, um Polarabenteurern einen noch nie dagewesenen

Zugang zu den abgelegensten Orten der Erde zu ermöglichen. Die Durchfahrt des ca. 100km langen Prins Christian Sund ist einer der Höhepunkte dieser Tage. Zweifellos ist dieser Fjord mit seinen atemberaubenden Gletschern und gewaltigen Eisbergen einer der schönsten Fjorde weltweit. Wir hoffen, dass wir das Dorf Aappilattoq besuchen können. Im Tasermiut Fjord können wir (gegen Aufpreis) an Land campen, sofern es die Bedingungen zulassen. Bei Wanderungen oder Heli-Ausflügen bestaunen wir die imposanten Gipfel von Nalumasortoq und Ulamertorsuaq sowie den beeindruckenden Sermeq-Gletscher.

9 - 11 Wir fahren zu den wilden Fjorden an der unbewohnten Ostküste Grönlands. Ein nennenswerter Fjord ist der Lindenow Fjord, auch bekannt unter seinem grönländischen Namen Kangerlussuatsiaq. Vor vielen Tausend Jahren siedelten sich Gruppen von Inuits und Jägern in den abgelegenen Fjorden an. Buckelwale kommen in diesen Fjorden recht häufig vor, da sie in diesen Gebieten nährstoffreiches Wasser vorfinden. Während wir unsere Augen nach Wildtieren offen halten, lädt uns das herrliche alpine Terrain ein, es zu Wasser, zu Land und in der Luft zu erkunden, um vollständig in die abgelegenen Eislandschaften der Region einzutauchen. Der wilde Osten ist ideal für Helikopterlandungen und Wanderungen, Paddelausflüge, Zodiac-Rundfahrten und Anlandungen.

12 Ausreichend Zeit für die Sehenswürdigkeiten in Nuuk. Rückflug nach Toronto, Transfer zum Hotel.

13 - 14 Transfer zum Flughafen und Rückflug nach Deutschland. Ankunft am nächsten Morgen.

SÜDGRÖNLAND AKTIV ENTDECKEN

MIT MS ULTRAMARINE

Wir erleben unser Grönland-Abenteuer an Bord des revolutionären Polarschiffs MS ULTRAMARINE, das mit luxuriösen Annehmlichkeiten ausgestattet ist und dazu das größte Portfolio an Abenteueraktivitäten in den Polargebieten bietet. Wir tauchen auf dieser einzigartigen Reise ein in die majestätische Landschaft der zweitgrößten Eismasse der Welt und entdecken die spektakulären Fjorde Südgrönlands.

MS ULTRAMARINE ist mit Kajaks, Zodiacs und zwei Helikoptern an Bord ausgestattet. So bietet unsere polare Abenteuerreise ein umfangreiches Angebot an Abenteueraktivitäten (viele davon sind im Preis inbegriffen), wie beispielsweise Kajak-Ausflüge und Zodiac-Fahrten in spektakulärer Umgebung. Mit den Helikoptern können besonders Abenteuerlustige optional (ohne Aufpreis) weitere spannende Aktivitäten unternehmen: Wir werden in kleinen Gruppen an einsamen Gletscherseen hoch in den Bergen abgesetzt, um eine atemberaubende Wanderung zu unternehmen. Auch kann optional (gegen Aufpreis) im malerischen Tasermiut-Fjord übernachtet werden.

REISEVERLAUF

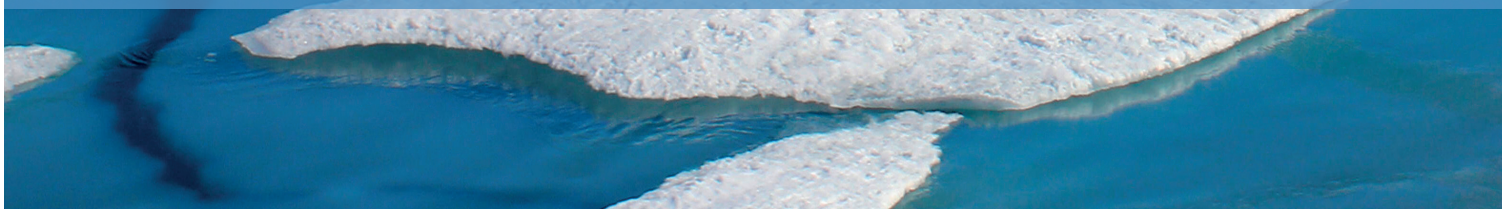

TAG 1 Linienflug von Frankfurt nach Calgary. Übernachtung im Hotel.

2 Morgens Charterflug nach Resolute, Nunavut. Nach der Ankunft haben wir die Möglichkeit, den kleinen Ort zu Fuß zu erkunden, bevor wir per Zodiac oder Hubschrauber zu unserem Schiff gebracht werden (je nach Standort des Schiffs und Wetterbedingungen).

3 - 10 An Bord von MS ULTRAMARINE umrunden wir die abgelegenen Inseln der kanadischen Hocharktis und fahren durch dieselben eisigen Buchten und Kanäle, die schon legendäre Entdecker fasziniert haben. MS ULTRAMARINE wurde entwickelt, um Polarabenteurern einen Zugang zu den am schwersten zugänglichen Orten des Planeten zu ermöglichen. Diese Reise hat keine feste Reiseroute. Jeden Tag wird unser hochqualifiziertes Expeditionsteam die Wetter- und Eisbedingungen auswerten und den besten Kurs wählen, um Zodiacfahrten und Landausflüge zur Wildtierbeobachtung zu ermöglichen. Wenn es die Wetterbedingungen zulassen, können wir an besonders eindrucksvollen Aktivitäten wie „Flightseeing“ (kurzer Rundflug) und optional an Helikopterlandungen (Flüge zu Orten, die für gewöhnliche Landausflüge nicht zugänglich sind) teilnehmen - zwei atemberaubende und unvergessliche Polarerlebnisse. Wir versuchen, die Ellesmere Insel zu erreichen. Ellesmere ist die nördlichste Insel des kanadischen arktischen Archipels und einer der entlegensten Orte der Welt - ein Land mit tiefen Fjorden, zerklüfteten Bergen und massiven Schelfeisflächen. Ein weiteres Ziel dieser Expedition ist der Besuch des berühmten Fossilienwaldes auf der Axel-Heiberg-Insel, der zweitnördlichsten Insel Kanadas. Die mumifizierten Baumstümpfe, die mehr als 30 Millionen Jahre alt sind, wurden erst 1985 entdeckt. Vogelbeobachter sollten ihre Ferngläser und Kameras bereithalten, denn auf der Insel lassen sich unter anderem

Schneefinken, Schneehühner, Eistaucher und Küstenseeschwalben beobachten. Auch die Insel Coburg, ein Naturschutzgebiet für Vögel, wie Schneeeulen und Wanderfalken, ist ein Ziel unserer Reise. Die geschützten Ufer und steilen Klippen von Arctic Bay sind ein idealer Nistplatz für verschiedene hocharktische Vögel wie Schneegänse, Dickschnabellummen und Dreizehenmöwen. Die Region ist seit fast 5.000 Jahren von den Inuit- und Thule-Kulturen bewohnt. Ein idealer Ort, um an Land zu gehen um mehr über die Inuit-Kultur zu erfahren. Auf Devon Island könnten wir wieder Wildtieren begegnen, denn hier leben Walrosse, Eisbären und Moschusochsen. Ein weiterer aufregender Ausflug, den unser Expeditionsteam anbieten könnte, ist die Möglichkeit, zur Eiskappe von Devon zu fliegen, eine der größten in der kanadischen Arktis. Geschichtsinteressierte werden auch die Gelegenheit haben, einen verlassenen Handelsposten der Hudson's Bay Company in Fort Ross am südlichen Ende von Somerset Island zu besichtigen und der unglückseligen Franklin-Expedition von 1845-46 an der Grabstätte dreier Besatzungsmitglieder auf Beechey Island, einem der bedeutendsten arktischen Forschungsstandorte Kanadas, die Ehre zu erweisen. Vielleicht haben wir auch die Gelegenheit, mit einem Zodiac an der Wand eines aktiven Gletschers in der Nähe der Croker Bay entlangzufahren und sogar das Wunder des kalbenden Eises aus sicherer Entfernung zu beobachten. An Naturschönheiten, Wildtieren und Geschichte herrscht in Kanadas Hocharktis kein Mangel. Jeden Tag werden wir etwas Neues und Inspirierendes entdecken.

- 11** Ausschiffung und Transfer zu unserem Charterflug zurück nach Calgary. Nach der Landung Übernachtung im Hotel.
- 12** Transfer zum Flughafen und Rückflug nach Deutschland.
- 13** Ankunft in Frankfurt.

NORDWESTPASSAGE, ELLESMERE- UND AXEL HEIBERG-INSEL

MIT MS ULTRAMARINE

Die ULTRAMARINE, ein Expeditionsschiff mit zwei Hubschraubern und 20 schnell startenden Zodiacs, ermöglicht es uns, diese atemberaubende Umgebung in der kanadischen Arktis aus völlig neuen Perspektiven zu erkunden. Wir erleben die Höhepunkte der Nordwestpassage wie die frühen Entdecker, als sie durch die beeindruckenden Buchten, Meeresarme und Kanäle der Region fahren. Auf dieser aufregenden Reise folgen wir dem Meer und dem Eis, um die kulturellen, historischen und geografischen Schätze der Region zu entdecken und versuchen die entlegensten Winkel dieser zerklüfteten, selten besuchten Landschaft zu erreichen. Unsere Abenteuerreise führt uns bis zur Ellesmere Insel, der nördlichsten und größten Insel des Kanadisch-Arktischen Archipels. Ebenfalls besuchen wir die Axel Heiberg Insel. Von hoch aufragenden Klippen bis hin zu mumifizierten Wäldern, von spektakulären Gletscherformationen bis hin zu atemberaubenden alpinen Aussichten, von ausgedehnten Wasserwegen bis hin zu geschützten Ufern - Kanadas abgelegene Arktis bietet eine absolute landschaftliche Vielfalt, die nur wenige Menschen zu sehen bekommen.

The Arctic is a place that must be felt, not simply seen. One comes to feel it, smell it and have it whip around your face. This place is special and wild simply because it is inhospitable, and to truly appreciate that, and to be enlivened by it, you have to be outdoors.

During his 12 years with Quark Expeditions, Jake has worked on over 10 different expedition vessels and explored nearly every polar destination where Quark Expeditions operates.

Advice to polar travelers: "Slow down, let your soul absorb every majestic moment, and spend plenty of time out on deck."

David Burton

Home base: Shetland Islands, UK

Years of polar experience: 10

Polar expeditions to date: 90

Areas of expertise: History and glaciology

Advice to polar travelers: "Head to the outer decks after dinner to take an evening constitutional. There's no better place than the Polar Regions to take some time and reflect on the serene beauty you've witnessed that day, as well as contemplate the life-changing moments you're experiencing. You never know what you might catch sight of—the majesty of the northern lights or a sighting of some wildlife!"

David (Woody) Wood

Home base: Melbourne, Australia

Years of polar experience: 20

Polar expeditions to date: 300

Areas of expertise: Woody has developed in-depth knowledge of numerous aspects of polar wilderness throughout two decades of polar expedition.

Advice to polar travelers: "Polar voyages touch people in different ways. The polar environment has a power which sets people thinking about their place in our world. Get prepared with gear and have the time of your life! Travel with eyes wide open, with no fixed ideas and be open to the beauty, wonder, tranquility and fury of the polar environment."

Ryan McDevitt

Home base: St. Petersburg, Florida, USA

Years of polar experience: 7

Polar expeditions to date: 75

Areas of expertise: Operations, logistics and helicopter operations

Advice to polar travelers: "Exploring these wild regions is a full sensory experience. Take time to breathe in deeply and absorb the sights, sounds, smells, and tastes of the Polar Regions. If you pack one thing for your expedition, make it a good set of binoculars and spend time using them on the outer decks."

Shane Evoy

Home base: Pointe au Baril, Ontario, Canada

Years of polar experience: 26

Polar expeditions to date: 250

What guests are apt to learn on a polar voyage: "I hope guests will learn a lot about the areas we go into so they can protect what they love. There's a quote from environmentalist Baba Dioum that I live by when I'm on an expedition: 'In the end, we will conserve only what we love; we will love only what we understand; and we will understand only what we are taught.'"

Advice to polar travelers: "Sit, look, listen, and feel what is around you and take it all in."

NEIL SIERENS

Chief Pilot

Home base: Fairoaks, UK

Years of helicopter experience: 19

Polar expeditions to date: 10

Areas of expertise: Helicopter operations around the globe; specialist in the safe transport of passengers to and from vessels.

On embracing helicopter adventures in the Polar Regions: "The view from above is like no other, but the helicopter flight provides more than just an elevated viewpoint. The landing sites we choose can only be accessed by helicopter. So, along with the great views, you can experience the thrill of possibly being the first person to have ever set foot in that area."

Our helicopter team: "Delivering an amazing helicopter experience involves a lot of highly-trained people. It's similar to a motor racing team which entails numerous experts working behind the scenes to ensure the process goes smoothly and safely. We are very selective in the pilots we hire to fly in the Polar Regions—and we're incredibly proud of our entire team. Guests are in very safe hands."

Advice to Polar Travelers: "Clearly you will want to take photos during your helicopter flight, but the lens cannot capture it all. Put down your camera occasionally and just look around. Secondly, on most flights you will be able to chat to the pilot. If you've got a question, there's a strong likelihood your fellow guests are also keen to hear the answer. If you don't get around to asking during the flight, you can always ask later when back on board *Ultramarine*."

The People of the North

Whenever we venture to the remote Arctic, we are ever mindful that we're visiting lands inhabited by Indigenous peoples who have thrived in these domains long before Europeans set out to explore new territories.

Honoring Indigenous heritage.

For centuries, Indigenous peoples, such as the Inuit, have hunted, fished, nurtured their cultural traditions and co-existed with the wildlife in Nunavut (Canadian Arctic) and remote Kalaallit Nunaat (Greenland). Whether we're visiting a community, hiking the tundra, or Zodiac cruising a fjord in Nunavut on itineraries such as Arctic Express Canada: The Heart of the Northwest Passage, we recognize we are visitors to the Nunavummiut homeland. Nunavut, in the Inuktitut language, means "our land."

Similarly, when we set foot on the Greenland Ice Sheet, visit a historic Thule site, view traditional qajaq

(kayak) demonstrations, or savor local food on a community visit, we are doing so on the homeland of the Greenlandic Inuit, or Kalaallit. Their land is known as Kalaallit Nunaat, meaning "The Land of the People."

Working in partnership with local communities.

As outlined in our Polar Promise sustainability strategy, respect for local people, their culture and traditions is our guiding principle when we plan community visits for our guests.

"Sometimes that respect manifests in the simple things," says Lyndsey Lewis, Head of Sustainability for Quark Expeditions. "For example, we always book community visits early—never at the last minute—and our team always deals directly with the community or locally-based operators. We also ensure that we understand how local residents would like to share their community, traditions and culture with us," says Lewis. "We feel quite strongly that the community should decide what activities they would like to offer, whether it's a sports game between guests, expedition team and local residents, or storytelling or a culinary experience."

To the people of the North: For inviting us into your homes, for giving us the opportunity to experience the beauty of your lands and your rich culture, we say Nakurmiik. Qujannamiik. Matna. Qujanaq. Thank you."

For itineraries that celebrate the Indigenous culture of Greenland and the Canadian High Arctic, see pages 24–41.

Supporting local communities

"Helping communities develop resources for tourism is important to us," says Lyndsey Lewis, Head of Sustainability for Quark Expeditions. "For instance, Quark Expeditions has supported the efforts of the town of Qaanaaq in northwest Greenland to develop infrastructure that supports visits by small expedition ships. Through our on-board auctions, our guests support a wide range of organizations and not-for-profit groups unrelated to the tourism industry."

Ittoqqortoormiit Museum Refurbishment

We support the community of Ittoqqortoormiit as they work to restore and modernize their local museum, to translate the sense of place and cultural identity of Ittoqqortoormiit.

Ilisaqsvik Society

This not-for-profit offers a wide range of culturally-based programs that support the physical, mental, emotional, and spiritual needs of all community residents from infants to elders.

Pond Inlet Elders Tea

A weekly community-led gathering for elders who come together to socialize, enjoy tea and country food (char, seal, whale and caribou), and participate in other activities.

Mittima Food Bank

This program puts healthy meals on the tables of families in need. The Mittima Food Bank, based in Pond Inlet, provides a grocery drop to over 400 families every two weeks.

Pirurvik Preschool

The Pirurvik Preschool in Pond Inlet provides early childhood education based on the Inuit Qaujimajatuqangit principles, and reflects traditional Inunnguiniq educational practices.

On Devon Island, visitors can see the remains of a Royal Canadian Mounted Police outpost established at Dundas Harbour in 1924 to prevent foreign whaling. Guests can also visit the small, well-maintained cemetery, one of the northernmost in Canada.

BEECHEY ISLAND, a significant historical site in Canada, features the marked graves of three crew members from the ill-fated Franklin expedition (1845-46). Norwegian explorer Roald Amundsen stopped here during his successful Northwest Passage transit (1903-1906) to pay his respects to Franklin.

AXEL HEIBERG ISLAND is an uninhabited island in the Qikiqtaaluk Region of Nunavut. It's home to the famous mummified trees (or fossil forest) dating back more than 30 million years.

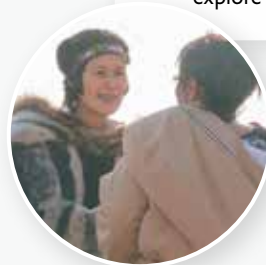

Axel Heiberg Island

GRISE FJORD, an Inuit community of about 150 residents, was established in 1953 when the government relocated eight Inuit families from northern Quebec. It is now Canada's northernmost settlement, where many rely on hunting and fishing for their livelihoods.

ARCTIC BAY

Ikpiarjuk (Arctic Bay) on northwest Baffin Island, with its sheltered shores and steep cliffs, offers ideal nesting for Brünnich's guillemots and kittiwakes. CANADA

ANCIENT HISTORY & CULTURE

Visiting local communities in the Canadian Arctic connects travelers to 4,000 years of Inuit history and culture. Pangnirtung, Pang for short, is an artistic community known for its beautiful hand-woven tapestries and lithographic prints.

Baffin Island

UUMMANNAQ, an island off Greenland's west coast, is one of the few places where Inuit still follow a traditional hunting and fishing lifestyle. Formerly known as Thule, it is home to about 1,200 Inuit, making it the second-largest town in North Greenland.

GREENLAND'S NORTHERN LIGHTS

Auroras occur when solar protons and electrons hit the Earth's magnetic field, creating a stunning display of multi-colored lights. In Greenland, the Northern Lights, typically green, white, and purple, can often be seen in September.

Ilulissat Icefjord, a tidal fjord and UNESCO World Heritage site, is home to Sermeq Kujalleq, one of the fastest and most active glaciers in the world.

MANITSOQ, a town of 2,500, is the gateway to stunning landscapes, fjords, and sharp-peaked mountains in West Greenland. A visit typically includes a stop at Eternity Fjord, one of Greenland's longest and most beautiful fjords.

TASERMIUT FJORD

Paddling and Zodiac excursions into the fjord allow for closer connection with a landscape that is considered one of the most beautiful places in Greenland.

GREENLANDIC CULTURE

A visit to Iltoqqortoormiit, the most isolated town in Greenland, is a window into the daily life of a remote community where many inhabitants still hunt and fish to continue their traditional heritage.

I love watching first-time Arctic guests as they take in the vastness of the tundra from afar and then have the opportunity to experience it intimately. From afar it can seem quite bleak. However, upon closer inspection the tundra reveals a myriad of flowering plants, nature's jewels, that never fail to impress.

Spitsbergen

Spitsbergen, known as the Wildlife Capital of the Arctic, is the largest island in Norway's Svalbard archipelago. Located about 1,300 kilometers from the North Pole, Spitsbergen is dark four months of the year, but when the sun returns in April, the days lengthen until sometime in June when the sun never sets. It's this near-constant light that creates the perfect conditions to view the wildlife species that have made Spitsbergen so popular: polar bears, walruses, reindeer, arctic foxes, beluga whales, seals and seabirds—all of which we hope to view against a backdrop of snow-capped mountains, glaciers and fjords.

Canadian Arctic

The Canadian Arctic is one of the world's least disturbed marine ecosystems, home to spectacular wildlife such as polar bears, ringed seals, and bowhead, narwhal and beluga whales. While sparsely populated, the region is rich in Inuit culture, especially in Nunavut. There are 35,563 islands in the Canadian Arctic Archipelago, of which Baffin Island is just one. Remote, austere and rugged, the Canadian Arctic invites modern-day explorers to navigate its icy channels and follow in the footsteps of legendary explorers who braved the fabled Northwest Passage.

My most memorable wildlife experience in the Arctic was from a Zodiac. We observed two adolescent polar bears playing on a pan of ice. Sustainability Matters.

Good explorers respect their environment. Great ones protect it.

In April 2019, we reinforced our commitment to the polar regions with the unveiling of **POLAR PROMISE**, our comprehensive and holistic sustainability strategy for the Polar Regions. In Polar Promise, Quark Expeditions identifies measurable goals to be reached by 2025.

This infographic reflects
QUARK EXPEDITIONS'
sustainability successes and goals—
celebrating our past while...

**PLANNING
FOR THE
FUTURE!**

REDUCE SINGLE-USE PLASTICS

Quark Expeditions continues to reduce single-use plastics on board our ships. Annually, we eliminate approximately:

**FUN
FACTS**

By working with our hotel provider, we've replaced **individually wrapped items** like butter, sugar, jam, honey, and yogurt with bulk versions.

We've installed **water fountains** on our vessels so that guests can refill their own reusable Quark Expeditions water bottle as needed.

Cabins have been **outfitted with soap and shampoo dispensers** to reduce waste, and we provide straws, paper napkins, and receipts only on request.

OFF-SHIP INITIATIVES

\$500,000 USD

Our annual goal to support Polar Research and Conservation.

Quark Expeditions provides free berths to conservation and scientific organizations, giving scientists access to remote regions to further their research. In addition, our guests contribute to these organizations through our onboard auctions.

\$270,425 USD

Auction proceeds supporting South Georgia Heritage Trust and Friends of South Georgia.

From 2014 to 2018, Quark Expeditions' guests supported the Habitat Restoration project and, in 2018, South Georgia was declared rodent free. Since then, proceeds from on-board auctions have been directed to the Biosecurity Dog Programme, which is vital to the recovering of bird populations.

TRAINING THROUGH NALUNAIQSIJIT:

THE INUIT CRUISE TRAINING INITIATIVE

Through Nalunaiqsijit: The Inuit Cruise Training Initiative, Quark Expeditions hires interns to work and learn on Arctic voyages to Nunavut. Many of these participants are subsequently hired as expedition guides in the Arctic and Antarctic. The goal of this Government of Nunavut program is to equip Nunavummiut with the qualifications and certifications necessary to pursue careers in the expedition cruise industry.

BLUE MARINE FOUNDATION

Quark Expeditions, in partnership with our sister brands at Travelopia, is proud to partner with Blue Marine Foundation. This partnership focuses on preserving coastlines and marine life that restore essential ocean ecosystems critical for fighting climate change. These "blue carbon ecosystems" are vital for removing and storing carbon, protecting diverse marine life, and supporting local communities through training and employment in marine conservation.

GREEN TECHNOLOGIES FOR OUR VESSELS

ULTRAMARINE

—as will our newest ship *Ocean Explorer*— is equipped with a Micro Auto Gasification System that thermally breaks down waste, reducing its volume by

UP TO 95%

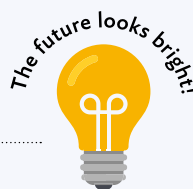

**40 DAYS
ZERO
WASTE**

These advanced waste systems mean the technologically-advanced vessel can operate for **40 DAYS** and discharge no solid waste!

Ultramarine has sufficient effluent storage to operate at full capacity with **340 PEOPLE** (guests and crew) for **5 DAYS**, eliminating the need for any discharge in particularly sensitive areas.

Ultramarine's LED lighting can potentially use **50% LESS** energy than standard fluorescent lighting.

Fuel-efficient *Ultramarine*
Ultramarine is equipped with a state-of-the-art recovery wheel that reclaims between 70% and 80% of the energy contained in the exhaust air, significantly reducing energy consumption and enhancing overall efficiency.

REDUCING OUR CARBON EMISSIONS.

OUR GOAL

By 2025, we aim to reduce our carbon emissions by:

20% / **PER PASSENGER PER DAY**

Our Polar Promise.

Behold the untouched beauty of the other pole—the stunning Antarctic—in this video. *Scan the QR Code or [watch here](#)*

At the opposite end of the world, lies another wilderness waiting to be explored: the Antarctic. This Polar Region, accessible from the tip of South America, entails a crossing of the iconic Drake Passage (by ship or by plane), where you'll discover penguin rookeries, iceberg filled bays, glaciers and rugged coasts which are home to vast populations of diverse wildlife species. Visits to the 7th Continent enable polar history enthusiasts to fulfill a lifetime dream of following in the footsteps of early explorers like Sir Ernest Shackleton. Add in the remote islands of South Georgia, the Falkland Islands, Snow Hill—as well as Patagonia—and you're in for an expedition of a lifetime.
