

## Abenteuer Spitzbergen with M/S Quest 2023

Experience a unforgettable Svalbard adventure with the small and comfortable expedition ship M/S Quest! In June, the midnight sun reigns supreme, the bird colonies are teeming with life and the peaks of the dramatic mountain ranges are beautifully snow-covered. The ice still keeps the islands in its grip and we can admire the ever-changing ice formations.

We stay one night at a hotel in Longyearbyen and then spend seven nights on board our expedition ship exploring the unique Arctic wilderness of Svalbard. We cruise along glistening glaciers, go ashore to enjoy the magnificent nature and keep a lookout for unique wildlife such as walruses, seals and polar bears.

**Please note that this is a German speaking departure.**

- 1 night in Longyearbyen
- 7 nights on the small expedition ship M/S Quest
- Magical midnight sun
- 5-star wildlife and nature experiences
- 5 German speaking guides
- The trip is climate compensated

<b>Accommodation:</b> Cabin on board M/S Quest, hotel.	<b>Transport:</b> Expedition ship, Zodiac.
<b>Ship:</b> M/S Quest.	<b>Passengers:</b> 53 passengers.
<b>Languages:</b> German.	<b>Length:</b> 9 days, 7 nights on ship.
<b>Price:</b> From USD 6 190.	<b>Departure:</b> 6 June 2023

[Overview](#) [Itinerary](#) [The ship](#) [Cabins & prices](#) [Departures & booking](#)

### ITINERARY

#### Day 1: Longyearbyen, Svalbard

We arrive in Longyearbyen and transfer to our hotel.

#### Day 2 - 8: Expedition cruising

We start our great adventure in Svalbard by exploring Longyearbyen. In the afternoon we embark the expedition ship and sail out through Isfjorden - the Arctic expedition has started! We are now in a part of the world where we are totally dependent on the ice and weather conditions. Our exact itinerary depends on these factors and on the wildlife we encounter. Our ambition is to make landings or cruises every day with our Zodiacs. Here are some examples of places we may visit:

#### Prins Karls Forland

This narrow strip of land is covered by a magnificent and snow-covered mountain chain. The island is also home to many seabirds and harbour seals.

#### Virgohamna, Danskøya

Two of the most courageous attempts to reach the North Pole started on the island of Danskøya. Swedish explorer Andrée made an attempt with a hydrogen balloon and American journalist Wellman started with an airship. There are still interesting remnants from these expeditions left on this site.

#### Fantastic fjords

Svalbard offers the visitor countless spectacular fjords. During our journey we will explore a few of them such as Liefdefjorden, meaning "The fjord of love", is lined with snow-covered mountain peaks and here we hope to encounter along the face of the spectacular Monaco Glacier. Many common eiders and pinkfooted geese nest in the area and if lucky we could see the rare king eider. In Krossfjorden we revel in the beautifully sculptured front of the 14th of July Glacier to the raucous greeting of the large number of kittiwakes and Brünnich's guillemots nesting on the nearby cliffs. Raudfjorden is an area of immense natural beauty - dominated by beautiful glaciers. It is also a favourite spot for seals and the bird cliffs are bursting with activity. The scientific village of Ny-Ålesund is situated in Kongsfjorden. It was from here that Amundsen and Nobile started their heroic expeditions to the North Pole.

#### North Spitsbergen

North of Spitsbergen we might meet the edge of the pack ice. Not many ships venture here and we can marvel at the silence and grandeur of this icy landscape. Chances of meeting polar bears increase as we sail along the ice floes.

#### Southwest Spitsbergen

The grand fjords of Hornsund offer spectacular glaciers and a breathtaking landscape of towering mountain peaks, often reaching above the clouds. On a clear day we can see the summit of the highest mountain Hornsundtind, measuring 1431 meters. Hornsund is a favourite haunt for some of Svalbard's polar bears and bearded seals are often seen resting on the fjord ice.

#### Day 9: Longyearbyen

Early morning we disembark our expedition ship and begin our journey back home.

*Please note: Our exact route will depend on ice, weather conditions and wildlife. The places mentioned are just examples of some of the many sites Svalbard has to offer. We always strive to maximise your experience. Please remember that flexibility is the key to a successful expedition!*

#### Flights

We offer climate compensated group flights from Oslo to Longyearbyen with return (limited availability). Contact us for more information!

#### Language

On this expedition cruise you travel with five experienced German speaking guides and the language on board will be German. Since we are a Swedish based company, your booking confirmation, forms and predeparture information will be in English.

#### Secure Payment

PolarQuest places all revenue in a bond with the Legal, Financial and Administrative Services Agency until the completion of your expedition. [Read more here.](#)

#### The Package Travel Directive – protects the traveller's rights

When you have booked a trip with PolarQuest, you are protected by the Package Travel Directive. This includes that you have the right to rebook your trip or cancel and receive a full refund, if your Government, or other relevant authorities, have implemented restrictions against travelling. This includes documented quarantine requirements in the country you are travelling to. However, free cancellation is only possible when it is less than 30 days to departure, provided the travel restrictions are still in place and clearly will affect your trip. You are also entitled to a full refund, should PolarQuest cancel the trip for any reason whatsoever.

#### Be inspired by our digital polar lectures!

Few trips can compare with a magnificent adventure to the realm of the polar bear, Svalbard, or the world's most remote continent, Antarctica. Our popular Expedition Leader Adam Rheborg has recorded short lectures on what it is like to travel with PolarQuest to these spectacular places on earth, and we hope that your longing to experience these fantastic places is even greater after you have listened!

#### Digital lectures - Svalbard

### THE SHIP M/S QUEST

#### A COMFORTABLE EXPEDITION SHIP WITH A WONDERFUL CREW

The ship was built in Denmark in 1992 to serve as a ferry on Greenland's west coast. In 2004/2005 she was completely refurbished into a comfortable expedition ship and in 2018 she underwent a renovation of the passenger areas. M/S Quest takes 53 passengers and all 26 cabins are outside cabins with private facilities. The triple cabins have upper and lower berths. All other cabins have two lower berths or a double bed. In your cabin you find a desk with a chair and a cupboard for storage. The superior cabins are spacious and have armchairs and TV. The owner's cabin has a double bed, two large picture windows, a separate seating area and TV.

In the dining room you are treated to delicious meals in between landings and in the panorama lounge you can enjoy breath-taking views of the surrounding landscape. Here you can listen to entertaining talks on the area's flora, fauna and history. In the lounge you also find a bar and a small library. The ship has spacious observation decks, where you can enjoy the beautiful vistas. Passengers are welcome on the bridge around the clock and there is always something to see or search for. You are welcomed by an international crew and the atmosphere is relaxed and very friendly. There are five Zodiacs and five guides on board M/S Quest.

*It is always possible to share a cabin on board M/S Quest. All cabins have windows and private facilities.*

### CABINS & PRICES

Cabin category		Price per person
Triple cabin	upper/lower beds	USD 6 190
Twin cabin	2 twin beds	USD 7 290
Twin cabin Plus	2 twin beds	USD 7 690
Double cabin	double bed	USD 7 690
Double cabin Superior	large double bed*	USD 8 790
Owner's cabin	large double bed	USD 9 590
Twin cabin for single use		USD 11 690

*Please note: It is always possible to share a cabin on board M/S Quest. All cabins have windows and private facilities.*

*\*The double bed in cabin 402, 319 & 301 is separable.*

#### Price includes

- 7 nights on board M/S Quest
- 1 night in a hotel in Longyearbyen
- Lunch day 2
- All meals on board
- Coffee and tea
- An experienced Expedition Leader and knowledgeable guides (German and English speaking)
- Guiding ashore and talks on board
- All excursions and activities
- Comprehensive information material before the expedition
- The trip is climate compensated

#### Not included

- Flight to/from Longyearbyen
- Travel and cancellation insurance
- The customary gratuity to the ship's crew
- Personal expenses such as bar and shop charges

### DEPARTURES & BOOKING

DEPARTURE	RETURN
6 June 2023	14 June 2023

## Expedition Spitzbergen with M/S Quest 2023

Join a once-in-a-lifetime adventure in one of the world's most remote wildernesses - Svalbard! In the beginning August it is still Arctic summer, the midnight sun reigns supreme and the ice thaws around the islands, which offers good opportunities to explore the seldom visited eastern parts of the archipelago. Whales are more frequently seen in the waters and more and more snow-free areas become accessible for longer walks. With ten nights on board we have plenty of time for grand nature experiences.

*Please note that this is a German speaking departure.*

- A once-in-a-lifetime adventure
- 10 nights on board M/S Quest
- Small group - great moments
- 5-star nature experiences
- 5 German speaking guides
- 100 % climate compensated

<b>Accommodation:</b> Cabin on board M/S Quest.	<b>Transport:</b> Expedition ship, Zodiac.
<b>Ship:</b> M/S Quest.	<b>Passengers:</b> 53 passengers.
<b>Languages:</b> German.	<b>Length:</b> 11 days, 10 nights on ship.
<b>Price:</b> From USD 8 290.	<b>Departure:</b> 2 August 2023

### ITINERARY

#### Day 1: Longyearbyen, Svalbard

We arrive in Longyearbyen, embark our expedition ship in the afternoon and sail out through the spectacular Isfjorden.

#### Day 2 - 10: Expedition

We are now in a part of the world where we are totally dependent on the ice and weather conditions. Our exact itinerary depends on these factors and on the wildlife we encounter. Our ambition is to make landings or cruises every day with our Zodiacs. Here are some examples of places we may visit:

##### Northwest Spitsbergen

The scientific village of Ny-Ålesund is situated in Kongsfjorden. It was from here that Amundsen and Nobile started their heroic expeditions to the North Pole. Two other courageous explorers to reach the North Pole started on the island of Danskøya. Swedish explorer André made an attempt with a hydrogen balloon and American journalist Wellman started with an airship. There are still interesting remnants from these expeditions left on this site.

##### Magnificent fjords

Svalbard offers the visitor countless spectacular fjords. During our journey we will explore a few of them such as: Liefdefjorden, meaning "The fjord of love", is lined with snow-covered mountain peaks and here we hope to cruise along the face of the spectacular Monaco Glacier. Many common eiders and pinkfooted geese nest in the area. In Krossfjorden we revel in the beautifully sculptured front of the 14th of July Glacier to the raucous greeting of the large number of kittiwakes and Brúnnich's guillemots nesting on the nearby cliffs. Raudfjorden is an area of immense natural beauty – dominated by beautiful glaciers. It is also a favourite spot for seals and the bird cliffs are bursting with activity.

##### Hinlopen Strait and Alkefjellet

If the ice allows we enter Hinlopen Strait. Here is Alkefjellet, an impressive, basaltic cliff, which is the home to an estimated 200 000 Brúnnich's guillemots. We may also continue into the beautiful bay Palanderbukta on Nordaustlandet.

##### Eastern Svalbard

The island of Nordaustlandet is covered by an enormous ice cap and fascinates naturalists as well as historians. There are huge glacier fronts here, intersected by hundreds of waterfalls. Barentsøya and Edgeøya offer magnificent landscapes and vast tundra. Chances to encounter walrus, Arctic fox and Svalbard reindeer are good here.

##### Southwest Spitsbergen

The grand fjords of Hornsund offer spectacular glaciers and a breathtaking landscape of towering mountain peaks, often reaching above the clouds. On a clear day we can see the summit of the highest mountain Hornsundtind, measuring 1431 meters. Hornsund is a favourite haunt for some of Svalbard's polar bears and bearded seals are often seen resting on the fjord ice.

#### Day 11: Longyearbyen

Early morning we disembark our expedition ship and begin our journey back home.

*Please note: Our exact route will depend on ice, weather conditions and wildlife. The places mentioned are just examples of some of the many sites Svalbard has to offer. We always strive to maximize your experience. Please remember that flexibility is the key to a successful expedition!*

Niaqirant

## Disko Bay to Uummannaq – Remote at heart 2023 (German & English)

Experience a life-affirming adventure with the beautiful 12-passenger ship *M/S Balto*! We begin our voyage by exploring the Disko Bay area, known for its diverse and astonishing landscape, including unique geological formations, deep fjords, springs and caves, magnificent towering icebergs and impressive glaciers faces. We continue up the beautiful Vaigat strait and onwards to the breathtakingly beautiful fjords or areas north of Uummannaq. The rich waters are likely to introduce us to several whale species, such as humpback, minke or pilot whales, as we navigate in between enormous icebergs under the midnight sun.

Travelling with this unique and elegant expedition ship in a group of merely 12 passengers offers a completely different and much more intimate experience of Greenland compared to a larger expedition ship. We get to visit remote settlements, meet the welcoming people living here and in a personal way learn more about their fascinating culture. Also, the footprints we leave behind are a lot smaller! The *M/S Balto* has a lot of experience of and is designed to explore the most remote fjord systems and take you to secret anchorages. This is true micro cruising.

**Please note that this is a German and English speaking departure only (no Swedish speaking guide on board).**

- Small group of 12 passengers
- Secret anchorages
- Countless gigantic icebergs
- Rarely visited fjord systems
- Isolated Inuit settlements
- Magical midnight sun
- Great whale watching areas
- The unique ship *M/S Balto*

<b>Accommodation:</b> Cabin on board the expedition ship <i>M/S Balto</i> .	<b>Transport:</b> Expedition ship, Zodiac.

### ITINERARY

#### Day 1: Embarkation

We arrive to the town by the ice fjord, Ilulissat. Immediately upon arrival, we are struck by the natural beauty that surrounds us, with hills, glaciers and a bay filled with icebergs. The remoteness from our everyday life is obvious! In the afternoon we board *M/S Balto*. After the safety orientation, we venture into **Disko Bay**, sailing in the low sun, amidst a wondrous parade of icebergs of thousand shades of blue. Overnight we sail across the bay and anchor past the glacial waterfalls by **Qeqertarsuaq** on the south side of Disko Island. Keep in mind that this is truly an expedition voyage, and our itinerary largely depends on weather, calving activity and amounts of ice. Where possible we go on zodiac excursions or make landings.

#### Day 2 – 9: Expedition cruising

We enjoy breakfast with a view of the volcanic cliffs of **Disko Island**. Disko is unique in its geology and lush vegetation and stands out in the otherwise ice-packed bay. Greenlandic legend says it is because the island was moved here from the south by two kayaking seal hunters, and when it entered Disko bay a witch from Ilulissat cast a spell on it to ground. The island invites to beautiful hikes and the columnar basalt rocks show the island's volcanic history.

We pay a visit to **Qeqertarsuaq** – the settlement on the island – to explore the beautiful nature around the town and the colourful town itself.

As we leave Qeqertarsuaq, we cruise close to the eastern side caves, which is also a place where we often witness humpback whales feeding. Occasionally we might hear the mighty thundering of a large ice calving across the bay. We continue up the picturesque **Vaigat Strait** and en route, we pass by some magnificent glacier fronts and navigate between myriads of icebergs.

There are many impressive and active glaciers in this part of Greenland. One of the glaciers we might explore is **Eqip Sermia**, which is one of the most active glaciers in Greenland. It is a powerful experience to hear the explosive sound of the air being released as the glacier calves.

When we proceed northwest on the Vaigat strait, striking high cliffs and enormous icebergs surround us. We round the corner of the Nuussuaq peninsula, which separates Disko Bay from the Uummannaq Bay. This area is known to be home to numerous different species of animals, such as whales, seals, walrus, reindeer and foxes.

We anchor in front of the secluded village of Niaqirnat, better known as "the village at the end of the world". The village is home to a population of approx. 50 people; several of them are proud hunters, displaying narwhal horns, walrus skulls, polar bear skin and antlers around their huts. This offers a unique opportunity to get an understanding of the local culture, of which we need to respect and aim to learn more!

Approaching **Uummannaq Island** is a sight to behold in any weather, on a clear sunny day or with heart shaped mountain or coastal cliffs rising above the strips of fog. We most likely will have the company of whales spraying near the ship. According to the myth, a piece of the visitors' hearts will remain on the Uummannaq Island, always trying to summon them back. Whether it is the magic mountain that dominates the landscape of the island or if it is the singing children ashore that are magnetizing, is left to be unsaid.

We aim to visit the town of Uummannaq with its old settler houses, church, museum and remains of failed Arctic expeditions in the area.

As we continue east, we approach several highly active glaciers, from which numerous of blue-shifting icebergs are thrown into the sea. Very few vessels venture here and many of the fjord systems are still unvisited. The crew of *M/S Balto*, who have had the fortune of travelling in this area, describes it as one of the most stunning landscapes of the north Greenland.

When we start to proceed southwest, we are likely to be treated with magnificent shows of enormous icebergs and the events they do – turning, exploding and maybe dumping lakes of water in the sea. We continue via the rarely visited western side of Disko Island, visiting fjords full of geological wonders.

#### Day 10: Ilulissat

In the morning we disembark in Ilulissat for homebound flights.

*Please note: Our exact route will depend on ice, weather conditions and wildlife as well as permissions and restrictions from local authorities. The places mentioned are just examples of some of the many sites this region of Greenland has to offer. We always strive to maximize your experience. Please remember that flexibility is the key to a successful expedition!*

#### The Package Travel Directive – protects the traveller's rights

When you have booked a trip with PolarQuest, you are protected by the Package Travel Directive. This includes that you have the right to rebook your trip or cancel and receive a full refund, if your Government, or other relevant authorities, have implemented restrictions against travelling. This includes documented quarantine requirements in the country you are travelling to. However, free cancellation is only possible when it is less than 30 days to departure, provided the travel restrictions are still in place and clearly will affect your trip. You are also entitled to a full refund, should PolarQuest cancel the trip for any reason whatsoever.

#### Language

On this expedition cruise you will travel with one German and one English speaking guide. Since we are a Swedish based company, your booking confirmation, forms and pre-departure information will be in English.

#### Flying to Greenland

Greenland is an enormous island. It is wild and remote and offers fascinating culture and history. Most airports are very small, the airlines flying there are few and flights do not arrive daily. For these reasons you will most likely find it necessary to add extra hotel nights in connection to your outbound and/or inbound flights. Flight tickets to Greenland are also rather high-priced, comparing to many other destinations. But even if flying here is a little bit of a challenge, the grand nature experience that awaits you is incomparable and worth every effort. We strongly recommend everyone to book flexible flight tickets.

#### Secure Payment

PolarQuest places all revenue in a bond with the Legal, Financial and Administrative Services Agency until the completion of your expedition. [Read more here.](#)

#### Be inspired by our digital lectures!

To sail along Greenland's spectacular coastline offers some of the most remarkable nature experiences. But what is it like to be on an expedition cruise in Greenland with a small, unique 12-passenger ship? Maybe you are wondering which places you can visit or what separates the east coast from the west coast? We believe that this digital polar lecture will give you a lot of answers and inspiration about our expeditions to Greenland. The presentation is given by one of our Greenland expert and expedition leader, Gunilla Lindh.

### THE SHIP M/S BALTO

*M/S Balto* is named after the leading sled dog of 1925 Nome serum run. She was built for the highest ice class in Rauma, Finland, to serve as a government service vessel in the Baltic sea. During 2019-2020, she has been totally refurbished and is now one of the roomiest and most elegant small polar expedition yachts in service. *M/S Balto* offers a relaxed luxury accommodation for 12 guests in 7 outside cabins, all with private facilities and lower beds. The spacious cabins include 1 Owner's cabin, 1 superior cabin, 3 double cabins and 2 single cabins. The Owner's cabin is 30m<sup>2</sup>, has 6 windows and a queen bed, the superior cabin has two twin beds while the double cabins has a queen bed. The Owner's and superior cabin also offer a separate seating area. In all cabins you find a desk with a chair and a closet for storage.

On the guest deck you also find a cedar lined sauna, accommodating 4-6 persons, with a cold shower and a small changing room. The richly appointed saloon and the beautiful dining messroom feature crotch-mahogany panelling, a bar, a card table, a library, coffee and tea stations. She offers a large restaurant style open galley, where you can check on the marvels of our chefs and sample freshly baked bread.

There are several open and semi enclosed deck spaces from where you can enjoy the stunning Arctic sceneries. You are welcomed by an international crew and the bridge is open for visitors.

The ship has been fitted with an electric diesel propulsion capable of maintaining versatile manoeuvring and survey speeds with no vibration. It is therefore ideal as film and photo platform. There is also a mud room for expedition gear and two Zodiacs for wilderness cruises and offshore experiences. *M/S Balto* is truly one of a kind when it comes to small polar expedition ships. Travelling with this unique 12-passenger ship offers a completely different and much more intimate experience of Greenland compared to a larger expedition ship.

A small group of merely 12 passengers gives us more flexibility, unique itineraries and more time ashore. Also, the footprints we leave behind are a lot smaller!

The *M/S Balto* is designed to explore the most remote fjord systems, visit isolated Inuit settlements, take you to secret anchorages and maximise each guest's experience in the unspoiled wilderness. This is true micro cruising.
